ABOUT US

IRISCOIN is an Australian registered legal international investment and trade company. The company was created by a group of qualified experts, professional bankers, traders and analysts who specialized in the stock, bond, futures, currencies, gold, silver and oil trading with having more than ten years of extensive practical experiences of combined personal skills, knowledge, talents and collective ambitions for success. Our company constantly work on implementing unique trading methods with the most advanced and effective trading technology, competitive services, high-quality performance, genuine practices, excellent customer support service and fund safety that allow us to work successfully on the market in a highly profitable way. Having many investment methods allows us to maintain a constant high interest rate for our clients. One of our strongest advantages over competitors is that we provide the utmost flexibility and the most important insurance on funds being invested with us. The company provides Risk- Free Investment products to global investors, which is a landmark for the company performance. IRISCOIN activities are regulated by the Australian international business authorities and complies with Australian legislation. Until recently, this program has been working mostly offline on Australian markets. In response to numerous requests of our clients we decided to move our business strategy to the next level by making it online for giving the ability to the international clients to use our services. A customer-focused approach, impeccable reputation and an innovative approach to business development has allowed the company to occupy a niche in offline business and to carry an out online expansion. The development history in the company is a perfect example of how intelligence and discipline may triumph over the chaotic motion of the market. Our increasingly challenging objectives encourage us to explore new areas and sectors of the business financial world. We are continually developing new, efficient strategies and investment products for our present and future online investors. The company enables its clients to diversify their investment portfolio and take advantage of those great opportunities that the financial markets can offer. Our investment strategies are built on solid grounds.
